

## ENGINEERING PROJECTS AND CONTRACTS

Power Systems

1<sup>st</sup> October 2024

### TO WHOM IT MAY CONCERN

#### Re: Project Completion – Eskom Kusile Power Station: Package 33A - Unit Auxiliary Transformers & Associated Electrical System Works

This letter serves to confirm that Inter Southern Power, t/a Southern Power Maintenance, has successfully completed the following subcontract works on behalf of ACTOM Power Systems:

- 1. Description:** Transportation, rigging into position, assembly, oil filling and cold commissioning of 13 x 110MVA Unit Auxiliary Transformers at Kusile Power Station.

**PO No.** S7475-PS

**Contract Period:** September 2014 – June 2018
- 2. Description:** Oil processing and remedial rectification work for the fitment of flux bypass straps to the cores of 12 x 110MVA unit auxiliary transformer at Kusile Power Station to alleviate the effects of the sympathetic inrush current phenomenon.

**PO No.** J9063-PS

**Contract Period:** June 2023 – November 2023

It is further confirmed that Southern Power Maintenance performed both subcontracts in a dedicated and professional manner under strict Eskom SHEQ regulations. Consequently, we gladly endorse their recommendation for any related transformer installation and oil processing works.

Yours sincerely

**John McClure**
