**COMPLETION CERTIFICATE**

This letter serves to confirm that City of Ekurhuleni has utilized the services of Southern Power Maintenance under contract number A-EE 14/20 for servicing of power transformers rated from 5MVA to 40MVA up to including 132kV rating, on an as and when required basis from 28 November 2012 till 30 June 2015. We further confirm that SPM's responsiveness in terms of site establishment on planned work was done within a 4 hour time frame.

Scope of work executed under this contract

- Testing of transformers before maintenance commences
- Clean transformers and concrete plinths
- Corrosive treatment and spray painting of transformers
- Regasketing of transformers (bushings, radiators, top covers, conservator tanks)
- Service tap-changers
- Fill tap changers with virgin oil
- Draw vacuum, replace oil under vacuum and top up transformers
- Replace silica gel
- Purify or replace with re-generated transformer oil in terms of the oil sample recommended
- Removal of existing crusher stone for 2 meters around transformer plinths
- Inspect cable end boxes and single core cables
- Clean NER's/NEC's and spray paint same
- Testing of transformers after completion of maintenance

We have found their work to be professional and surpassing our expectations. We would highly recommend Southern Power Maintenance to potential customers.

For any queries, feel free to contact the undersigned.

Yours faithfully
